

SDF: SAME Library opens in Treviglio

Treviglio (BG), 12 September 2024

SDF, one of the world's leading manufacturers of tractors, harvesters, electric self-driving tractors and diesel engines, today inaugurated the SAME Library at its headquarters in Treviglio (Bergamo).

Reserved for SDF employees in Italy (c. 1,400), the SAME Library currently holds around 1,300 books but the company intends to increase this to 5,000 volumes over the coming years. The collection covers a vast array of choice, including bestsellers, classics, novels, thrillers, poetry volumes, magazines and books for children and young people – as well as publications on agricultural mechanisation.

As part of SDF's welfare programme, the SAME Library aims to improve employee quality of life, offering free book loans and magazines to read within the library space, which will be open twice a week during lunchtime.

The SAME Library will also be part of the Bergamo Libraries Network (RBBG), allowing all registered employees to borrow books and publications from 245 participating libraries around the province. The network is connected via an interloan system, with a single online catalogue showing the collections of all the libraries in the network (www.rbbg.it).

Press Release

SDF, an Italian multinational with its headquarters in Treviglio (Bergamo, Italy), is one of the world's leading manufacturers of tractors, agricultural harvester machines, electric self-driving tractors and diesel engines. It distributes its products under the SAME, DEUTZ-FAHR, Hürlimann, Grégoire and Vitibot brands. The product range consists of tractors from 25 to 336 CV HP and harvesters with power outputs up to 395 HP. Over almost a century of history, the company has been a driving force in mechanising the agricultural sector, forged its own path to become a leading international enterprise and played a key role in spurring the digital transformation of agriculture, and now produces smart tractors conceived to increase operational efficiency and productivity in keeping with the precepts of Agriculture 4.0. SDF has 9 production plants, 13 commercial branches, 2 joint ventures, 155 importers and over 3,100 dealers worldwide and a global workforce of more than 4,400 employees. In 2023, the company registered revenues of 2,031 million euros, with an EBITDA of 15.9%. www.sdfgroup.com
